

Goji Berry Silky Skin Cream with Plantamulse Pastilles

It just doesn't get better than this! Plantamulse Pastilles forms the foundation for this all natural, silky smooth cream. Cetearyl Alcohol helps to build body and add stability while Shea Butter, Rice Bran Oil and Calendula Extract OS provide conditioning emolliency. We have utilized GuarSilk for its substantive conditioned feel which is key to this formula.

Antioxidant Synergy Blend offers powerful antioxidant characteristics for the formula as well as free radical scavenger benefits for skin care. Honeysuckle Extract WS is soothing and moisturizing while Sensique Goji Berry Scented Botanical Extract offers botanical benefits with a lovely fresh, citrusy scent! Leucidal Advanced Bamboo is the primary antimicrobial and preservative in this formula.

We think you will love this silky soft cream as much as we do!

Ingredient	Amount
Part A	
Distilled Water	66.45% = 332.25 grams
Part B	
Plantamulse Pastilles	4.0% = 20 grams
Cetearyl Alcohol	2.0% = 10 grams
Shea Butter	5.0% = 25 grams
Rice Bran Oil	5.0% = 25 grams
Calendula Extract OS	5.0% = 25 grams
Part C	
Antioxidant Synergy Blend	0.3% = 1.5 grams
Honeysuckle Extract WS	2.0% = 10 grams
Leucidal Advanced Bamboo	3.0% = 15 grams
Sensique Goji Berry SBE	2.0% = 10 grams
Part D	
GuarSilk	0.25% = 1.25 grams
Fractionated Coconut Oil	5.0% = 25 grams
Total:	100% = 500 grams

-In Part D: Combine GuarSilk and FCO in a small dish such as our porcelain evaporating dish. Set aside.

-In Part A: Weigh/add water to heat safe container (ie. Our 32oz. Stainless Steel Beaker). Heat to 175F.

-In Part B: Combine ingredients in heat safe container (ie. our 32oz. Stainless Steel Beaker). Heat to 175F (or until melted and clear) on direct low heat source – monitor constantly to avoid scorching.

-Add Part A to B with mixing. We use a standard upright propeller mixer to create this emulsion. Continue to mix as emulsion begins to form and cool to 100F.

-Part C and D: When emulsion has cooled to 100F or less, add Part C ingredients with continuous mixing. Once incorporated, add Part D (premixed GuarSilk/FCO) and continue to mix for 30 minutes or until smooth and completely cool.
