## Body Care - Creams

### Virgin Coconut Cream

|        | Ingredient                            | Amount           |
|--------|---------------------------------------|------------------|
| Part A |                                       |                  |
|        | Distilled Water                       | 72% = 360 grams  |
|        | VenaSilk                              | 1% = 5 grams     |
|        | Glycerin                              | 3% = 15 grams    |
| Part B |                                       |                  |
|        | Olive Squalane                        | 1% = 5 grams     |
|        | Abyssinian Oil                        | 2% = 10 grams    |
|        | Jojoba Oil                            | 2% = 10 grams    |
|        | Meadowfoam Seed Oil                   | 2% = 10 grams    |
|        | EmEster                               | 2% = 10 grams    |
|        | Botanical Complex LSC                 | 2% = 10 grams    |
|        | Virgin Coconut Oil                    | 5% = 25 grams    |
|        | Cetearyl Alcohol                      | 3% = 15 grams    |
|        | Covo-ox T-50                          | 1% = 5 grams     |
|        | Ceteareth 20                          | 1.6% = 8 grams   |
|        | Glyceryl Stearate                     | 1.9% = 9.5 grams |
| Part C |                                       |                  |
|        | Germall Plus Liquid                   | 0.5% = 2.5 grams |
|        | Fragrance or Essential Oil (optional) |                  |
|        | Total:                                | 100% = 500 grams |

In Part A, mix VenaSilk and Glycerin until a paste forms. Add Distilled Water blend. Heat Part A to 175F. Combine Part B ingredients and heat to 175F. Add Part A to B with high shear mixing. Cool to 50C/122F (or less), add Part C and mix well.
