#### Botanical Moisturizer with Rose Phytolate and PhytoE Complex

Moisturizing, rejuvenating, and conditioning! This moisturizer is based on Natramulse, our natural source emulsifier. Natramulse will help the skin to retain moisture and provide conditioning as well. Botanical extracts, including the new Herbarie Rose Phytolate and PhytoE Complex, serve to rejuvenate and moisturize skin. Rich, nourishing oils, such as Virgin Coconut and Olive Squalane, will help to condition skin and leave it feeling silky soft.
