## *Hair Care - Leave-In Conditioners & Gels*

---

### Acacia Shining Finish for Hair

Acacia Gum is a natural, low viscosity emulsifier derived from the sap of the African acacia tree. In this formula, Acacia Gum is used to emulsify the essential oil, as well as, smooth frizzies and add body to dry flyaway hair. Dimethicone Copolyol Ester provides silkiness and shine. Rosemary Hydrosol/Distillate was used as the entire water phase to impart botanical benefits and a fresh scent.

Ingredient	Amount
Acacia Gum	4.0% = 20 grams
*Rosemary Hydrosol / Distillate	93.9% = 469.5 grams
LiproSilk	0.3% = 1.5 grams
DI Panthenol	0.5% = 2.5 grams
Dimethicone Copolyol Ester	0.5% = 2.5 grams
Essential Oil or Fragrance Oil	0.5% = 2.5 grams
Germaben II	0.3% = 1.5 grams
Total:	100% = 500 grams

Add Acacia Gum to room temperature hydrosol or distilled water with mixing – a hand held whisk can be used or a hand held stick blender can be used. Set aside and allow Acacia Gum to hydrate for at least 30 minutes. When Acacia Gum is completely hydrated (after at least 30 minutes), add Essential Oil or Fragrance Oil and mix well with a whisk or stick blender. Add Germaben II and mix well.

\* Distilled Water or another Hydrosol/Distillate can be substituted for all or part of the water phase
